'NO' on Sewer Bonds

Vote 'NO' on Prop. 6, 13, 16, 21, 22, 24

The WPA Sewer Project

There is no hurry and no need for increasing the bonded indebtedness of the city by voting for the sewer bonds. Our taxes are going to be hiked out of all proportion to the benefit bestowed upon the individual home owner, in order to give municipal service of police, fire, school, garbage collections, street maintenance to the various federal activities and federal buildings which add nothing to the local tax rolls. And when the flurry is all past we are still going to have the headaches of the morning after the big splash and crash. The less bonded burdens we pile up the easier it will be on us in the future when the reckoning comes and we will sweat blood to pay for the folly and hysteria of the present.

The federal government has started the main sewer interceptor line along the harbor front from 32nd street to Point Loma reservation **as a WPA project.** That means they are going to piddle along till the cows come home as they have done on all similar projects which are not contracted for in a specific time limit with responsible contractors and construction crews. While that interceptor line is not built, the city will not be able to connect its sewer system into it. Judging by what the WPA has done in the past, and there is no reason to believe that WPA is going to turn into an efficient crew just for this one project, it will be about 3 years till the interceptor line will be fool proof and functioning. Two years from now we shall have another election. If they have enough of the line finished to connect up we can vote bonds then. More likely, than not, times will have changed to such a worse extent with all this lend-spending that the federal government will make an additional WPA project of connecting up the lines, too. Why go into more debt in these uncertain times unless you have to?! The federal government does not give a damn where the money comes from, but you are the fall guy who will have to go to the tax collector and pay for these bonds or lose your home. Besides why pump sewage for 20 miles from La Jolla Shores to the plant at 32nd street? Have you ever heard of a crazier scheme? There should be two or three plants. Sabotage can easily destroy a single line and then what?

This Is Our Forecast

While we do not guarantee the outcome, we venture to say that when the votes have been counted the following candidates will have emerged as winners. **Dayton L. Ault** for city attorney. **Fred W. Simpson, Paul J. Hartley, Ernest J. Boud** for city councilmen. Of course, Judge Daney will be there.

Axtell, Hale & Hardy

For members of the Board of Education we recommend the Christian minister John D. Axtell, Mrs. Mildred Hale and Edward L. Hardy.

Propositions

'YES' votes on Propositions I to V

'NO' on Proposition VI

The harbor department has already been allocated the sum of $1,500,00 for 1941-42. With the war on our hands we cannot tell what will happen in another year. If peace comes suddenly we might be busted up wide open with all the welfare relief for the thousands of unemployed on our hands who have come to work here temporarily. And if the war is still going on, the federal government will be running this port and will have plenty of billions for its needs. Play safe and hold down local burdens!

'YES' on Propositions VII to XII

Confiscation of Property

Proposition XIII has been turned down by the voters twice already at previous elections but the mob-rule politicians are trying to sneak it in anyway. No responsible party could contract to erect a public utility and finance it if the city council is free to take it away from them the next year after it is a going concern. For this purpose a ten year limitation is set up in the city charter to give a reasonable sense of security to the investing public that buys stock. Proposition XIII is trying to rob the public of that security by permitting the city council to confiscate property at its option by condemnation.

'YES' on Propositions XIV and XV

Protect Faithful Employees

Proposition XVI is the politician's way of sabotaging civil service. When the politicians at city hall cannot corrupt the police to do their bidding, as it happens in some instances, they simply fail to appropriate enough money for policewomen. What they have done in that case the crooks can do with other civil service employees or departments. With this amendment in the city charter an honest employee would have no recourse to the courts. It's the politician's way to corrupt civil service. **Vote NO.**

'YES' on Propositions XVII to XX

XXI Is Unconstitutional

In a sleek language, most unobtrusively, the politicians propose mob rule by vote of the majority for the abrogation of contracts by simply amending the city charter. They use the phrase "not inconsistent" with any provision of the city charter. The U. S. Constitution has limited the power of states to retroactively abrogate contracts by **denying them that power** alltogether. Now the politicians are proposing to give the city of San Diego power denied to the state of California. Read Sec. 10, Art. I of the federal constitution regarding "impairing the obligation of contracts".

'NO' on 40% Wage Increase

Proposition XXII intends to make the fire department a sacred cow, just because it is a closed shop AFL union, by placing its hours of work and wages in the city charter. If that's what city employees are entitled to, then **all city employees** are entitled to the same 40% boost in wages with **half pay for life after** retirement. Why should the ordinary employee be satisfied this year with an 8% raise in wages when the firemen get a 40% raise?

'YES' on Proposition XXIII

Save Balboa Park

At the rate the buildings of the navy hospital are spreading over Balboa Park it will soon be the main occupant of the park. It was a mistake to have permitted this camel to stick its head in the tent. Now it is asking for more land. **Nothing doing!** There is plenty of land near the naval radio station on Federal boulevard and Radio road. That's where the hospital belongs. **Vote 'NO' on proposition XXIV.** Keep the park for the people, don't donate it to the navy and the medical octopus.

—o—

Another People Sacrificed for Britain

Pessimistic

WASHINGTON,—Col. William Donovan, the not-so-secret military emissary of the White House in Africa, Turkey and the Balkans, admits privately that he is a bit pessimistic about eventual British victory in the all-out clash with Herr Hitler.

"Wild Bill", who was an exellent soldier and can wear (though he doesn't) our highest military decorations, thinks that the British relied too heavily on their 'sand flank' in North Africa. Having experienced the dangers and difficulties of the desert terrain in their drive against Mussolini's easily conquerable forces in that area, the British commanders in Libya thought that their panzer opponents plus Italian remnants would be stalemated by the sands. Unfortunately, the British were out-smarted. And here may be the key to this whole war, according to our top military strategists.—Ray Tucker.

Campaign Lies on Prop. 22

I am surprised at my friend George W. Fisher for making misleading statements over KFSD that the city charter prevents the city council from giving the firemen a six day week. There is nothing of the kind contained in the charter. On the contrary: It authorizes the Fire Chief to **improve** working conditions and change the **time** of shifts, as long at is does not **add burdens** upon the firemen.

His other claim that the civil service commission has no power to raise wages of firemen is equally untrue. The charter specifically provides for it and the merit system merely applies to promotions and demotions, but not to wage schedules.

I am afraid George Fisher did not study the charter and took someone else's word for it, otherwise he could not have honestly made such false statements.

—o—

Why Submit to Jewish Tranny ?

If anybody approaches you and tells you what he is going to do to you if you patronize THE BROOM, or any other business, person or institution, don't be scared of him. Just get his name, address, time of approach and location. Write down what he said so you get it straight and if it means boycott or intimidation with consequent damage to you, read the act of Congress of 1870, re-enacted in 1909, which can be found in the U. S. Code Annotated, Sec. I, Title 18, as follows:

"**If two or more persons conspire** to injure, oppress, threaten, or **intimidate** any citizen in the **free exercise** or enjoyment of any right or privilege secured to him by the Constitution or laws of the United Staes, or because of his having so exercised the same, or if two or more persons go in disguise on the highway, or on the premises of another with intent to prevent or hinder his free exercise or enjoyment of any right or privilege so secured, they **shall be fined** not more than **$5,000** and imprisoned not more than **10 years** and shall, moreover, be thereafter ineligible to any office, or place of honor, profit or trust created by the Constitution or laws of the United States."

The federal courts have always enforced this act in eastern states where editors were concerned, or if anybody threatens your right to free speech on any political, national or international subject, he is liable to ten years in the calaboose and loses his rights to hold office.

JIMMY'S SECOND MARRIAGE

Jimmy Roosevelt is getting married again
To a Catholic girl this time.
How can he do it, being a divorced man,
When the girl's church does not recognize divorces?

Oh, they are powerful, those Roosevelts!
They know how to overcome all obstacles,
Even the rules of a very old church!
So Jimmy now takes a Catholic wife,
Even though her religion is strongly opposed to his actions.

—Emelda Deshaies.

Aid-to-Britain—plow under every fourth American boy.—Senator Wheeler.

WANTED TO BUY, BY RELIABLE PARTY. Small house with garden space of one or two acres suitable for fruit and vegetables Must be low in price. Write terms, description, price, how to get to place in first letter. Location may be in any part of Southern California.
E. F. Balfanz, Route 4, Box 104, Watsonville, California.

Spot the Warmongers!

Public Not Aware of U. S. War Danger

WASHINGTON,—President Roosevelt declared that the American public does not appreciate the extreme seriousness of the European war and its implications concerning life in the United States.

Public awareness of the significance of the struggle is gradually increasing but thus far has been inadequate, he said. He refused to answer a question as to whether Allied reverses in Greece made America's position more critical.

He also refused to answer a question as to whether the army's organization of a civilian observation corps for airplane spotting might infer there is danger of an air attack against this country.

The president later left for a week-end at Hyde Park.

Editor's Note:—What we need is a civilian observation corps to spot the warbugs in Roosevelt's brain as well as spot every Jewish and British warmonger. Once they are isolated the war danger for the U. S. A. will be a thing of the past.

Roosevelt is responsible before God for the slaughter of Yugo-Slavia. He pushed them into war.

Printer's Note:—Quite the contrary to Roosevelt's idea about the American people's appreciation of the extreme seriousness of the European situation,—they do know, that's why we are fighting to keep out of that mess. And further the reason Roosevelt would not answer those two questions he knows that Greece's predicament does not affect the U. S. and also that there is no danger from an air invasion of this country so as long as we stay on this side of the pond, so he declines to comment.

—o—

"Diseased Mind" Wants War

Bishop Assails 'Lies': Willkie Implied Target

SEATTLE,—The Most Rev. Gerald Shaughnessy, Catholic bishop of Seattle, assailed certain American public figures, without mentioning their names, in an Easter sermon at pontifical mass in St. James cathedral.

"Recently we witnessed an exciting national campaign and election in which specific statements were made and most solemn pledges given to our country, supposedly on the word of honor of a Christian gentleman.

Reference to Willkie

"But a few days ago, when this person, whose later action belied his promises, was taxed with his own words, he lightly dismissed the subject with the revealing words, 'That was but campaign oratory'.

"Lying is thus enthroned before us as a public god and a means to which apparently our leaders, or would-be leaders, may resort with imunity."

(The incident to which Bishop Shaughnessy apparently referred occurred Feb. 12 while Wendell Willkie was testifying before the senate foreign relations committee at a hearing on the lease-lend bill).

The bishop also said a serious threat to the nation had been made in the recommendation put forth by "one of the assistant attorney generals, in charge of anti-trust prosecutions".

State Church Assailed

". . . By a strange quirk of fate and a most peculiar mentality he has publicly advocated that, in what is termed the present emergency, all the churches of the United States be, in effect, suppressed and in their place there be set up some invention of the government that might perhaps be termed a state church.

". . . Today, leaders, or would-be leaders, of public opinion . . . are daily setting forth for the unwary a bread of advice and counsel that is leavened with the corrupted morals of a diseased mind." (Infantile Paralysis).

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931 at the postoffice of San Diego, California, under the Act of March 3, 1879.

How to Write Letters of Protest to The White House and Congress

If you wish to keep on telling the President that you did not change your mind yet about going to war for the British Empire and the Jewish International Bankers and the other vermin and leeches who are sucking the life blood of the world, address your letters plainly as follows:

Franklin Delano Roosevelt, Esq.
The White House, Washington, D. C.

In the letter itself you can address the President as Sir: or Dear Sir: or you can reciprocate it by calling him, My Friend: for example—

Sir:

I remember your telling us before election and after election how you were going to keep us out of war; this is to inform you that you are expected to keep your promise. Don't get us into war by starting to convoy boats to Britain, the Suez Canal or anywhere else. You told us that the British will come and get their stuff and pay cash on the barrelhead when you insisted on changing the neutrality act; then you turned around and pushed the lend-lease-spend-our-money for Britain bill through Congress. Now don't start a war; we got enough from the last one and don't want to kill our young men for British profit even if you do hobnob with the King and Queen and call Churchill by his first name.

Yours truly for Peace and America First.
(Sign your full name and address)

Letters to Congress

All mail addressed to Representatives is sent to the House Office Bldg. — For example:

Hon. Ed Izac,
House Office Bldg., Washington, D. C.
My dear Mr. Izac:

I want to remind you that I did not send you to Washington in order to get us into a war to fight a second time for British Imperialism. If you want to go to war, all you have to do is step across the border into Canada and enlist. If you are an American Representative, then be one and represent America First. As a Democrat you were elected on the platform of staying out of war; now bear that in mind, otherwise you can stay right where you are, for San Diego is not going to send you back to congress at the next election.

Yours truly for Peace and America First.
(Sign your full name and address)

Two Senators from California

Senator Hiram Johnson will appreciate your letters to keep us out of war, because he wants to do that very thing. But Senator Sheridan Downey needs to be reminded that Californians don't want to fight for Great Britain. While you should write to both senators, **be sure to write to Downey.**

And before you forget it, write one letter weekly to Roosevelt and to Izac as well as to each Senator. The other side is writing, so you must offset their letters by writing promptly and persistently. Your letters are counted and if it had not been for letter writing Roosevelt would have long since declared war. The Jews, the Rothschilds and the other leeches have come here to get us to fight for their boodle and the New Dealers are doing their darndest to do their master's bidding; except for fear of the American people, they would have long since sent our boys across.

Hon. Sheridan Downey
Senate Office Bldg., Washington, D. C.
My dear Mr. Downey:

This is just a reminder that we are not ready to go to war yet. Perhaps you forgot it, but we don't. Be sure and keep us out of war and away from convoying boats to England. California is for PEACE and America First.

Yours truly ————————

HELL and AMEN, by the unquenchable humorist, Frank C. Hughes of Squirrel Island, Maine. A book of letters and articles on religious superstitions, rackets and the New Deal. For sale at $2.50 Write to David de Aryan, East San Diego, California.

"I shall know but one country. The ends I aim at shall be my Country's, my God's and Truth's. I was born an American; I live an American; I shall die an American; and I intend to perform the duties incumbent upon me in that character to the end of my career."
—Daniel Webster.

o

Prevent Frauds in Circulating Petitions

Immediate preparation of a proposed state constitutional amendment to give city councils authority to prescribe the form of petitions that would be used to initiate city-charter amendments was ordered by the city council.

The action was taken at the request of C. Leon de Aryan, weekly newspaper publisher, who urged the amendment "to protect the voters from being mislead".

de Aryan recently waged an unsuccessful superior court battle to block submission at the general municipal election next Tuesday of a charter amendment initiated by the firemen for shorter hours and a minimum wage scale. He contended that the petitions circulated by firemen to have the proposition placed on the ballot were misleading.

Verbally and in writing, de Aryan told the council that the state constitution governs charter initative petitions, and urged that the amendment he suggested be drafted by the city attorney and sent to Sacramento "for placing on the ballot at the next general election".

"It's a proper amendment and is needed as the constitution is vague," said H. B. Daniel, assistant city attorney. "All cities should have the right to prescribe the form of initiative petitions."

o

Wheeler Warns of Revolution

SALT LAKE CITY,—Sen. Burton K. Wheeler, Montana Democrat and isolationist leader, charged that American entry into the European war eventually would end in inflation and revolution.

Wheeler addressed a meeting here sponsored by America First Committee. More than 2000 overflowed a hotel auditorium to hear the speech, despite an unseasonal snowstorm of blizzard intensity.

The Montana senator defended the committee sponsoring his appearance, and declared that "the real subversive elements" in this country are those "New York interests" promoting armed intervention abroad. His mention of Col. Charles A. Lindbergh as a "real patriot" brought a five-minute ovation.

o

War Causes Volcanic Eruptions

World Entering Volcanic Cycle, Says Famed 'Glacier Priest'

SAN FRANCISCO,—Eruptions of volcanoes in the Mexican province of Colima as an aftermath of Tuesday's destructive earthquake is the first phase of a volcanic cycle which the world now is entering, Father Bernard R. Hubbard, famed "glacier priest", said in a statement wired from New York.

Hubbard, Alaskan explorer and Santa Clara University geologist, said that 14 years of studying the volcanoes of the Aleutian islands had indicated to him that volcanic eruptions will occur in various regions during the next two years.

"I am expecting Bogoslof volcano in the Aleutians to blow up at any time now, and Mt. Lassen, in California, may show a little unusual activity," he said.

"There is also a distinct possibility that this year's unusual weather is related to the current volcanic cycle. Many scientists consider that volcanic and meteorological cycles are directly connected.

"If the war continues, nature can be expected to stage a blitz of her own, which will put man with his punny explosives to shame.

Jewish Communist on Supreme Bench Boring From Within

WASHINGTON,—The Frankfurter boys have short-circuited their trust-busting dynamo in the new deal, Mr. Thurman Arnold, so quietly no one heard the fuse blow.

His wires were cut in such a complicated legal way by the supreme court that no notice has appeared and outsiders are generally unaware of it. The last three decisions voiding his indictments against labor unions were rendered under a peculiar court custom which denied Arnold the right to present his case. Only a related jurisdictional question could be debated. Some old time dealers now are saying: "The old Hoover-Coolidge-Wilson supreme court might knock down all new interpretations of law, but at least they would hear the arguments."

As a result, Arnold's associates say that he, an assistant attorney general of the United States, is reduced to writing magazine articles to draw attention to the way in which local unions are defying their own Wagner act, levying tribute prices upon industries and erecting embargoes against commerce.

Arnold's case is simply this: Local union leaders in both A. F. L. and C. I. O. have refused to abide by labor board elections and have called strikes. They have refused to handle goods coming from competitive union workers. They have fixed prices to consumers through their wage demands. They are in effect erecting tariff walls, levying taxes and fixing prices. He has cited hundreds of cases and has filed numerous indictments. There is no dispute about these facts.

You would think the national labor organizations would want to break up this local union dictatorship. It deprives the national leaders of any real authority over their locals, which are becoming autonomous dictatorships.

But in all the test cases which have reached the supreme court, the group led by Justice Frankfurter has rendered majority opinions completely breaking down Arnold's theory and setting up the law that the government has no power to lay a civil hand upon a union—no matter what it wants to do.. In three decisions last Monday, the court set the labor unions alone, among all other people in the United States, as immune to the anti-trust law.

Arnold will take his fight to congress, but there is not much more hope for him there than in the supreme court unless Mr. Roosevelt speaks out. This congress has been noted solely for its timidity. Nothing that Mr. Roosevelt has failed to mention has passed so far.

If a bill is introduced to throw a few more words into the anti-trust law and make clear the will of congress to have the law apply to all the people, the bill will no doubt be consigned to the massive congressional mausoleum of things to be forgotten.

Mr. Arnold has been called the "Pavlowa" of the new deal, a suggestion that he pirouettes a step ahead of the new deal parade.

The bitter truth is the Frankfurter boys are becoming the reactionaries of government. They seem to have learned their liberalism from books rather than from any intuitive sence of justice. When the books were written many years ago and labor was downtrodden, any boost for labor was scored for liberalism. But now that labor has established itself the equal if not the superior of management, and is indulging in the excesses which all powerful political groups naturally affect after successes, the Frankfurter group has neglected to keep up with the times. It no longer is inspired by an urge to accomplish the greater good for the greater numbers. The consumers, who are the great bulk of the people are neglected.

In deepest reaction, the majority of new dealers who think of themselves as liberals are clinging to the principles of an obsolete primer of the past.

It can't be heresy to say these things publicly because the new deal has always maintained the supreme court is not above criticism.

—Paul Mallon.

Soviet New Deal

Three managers of chicken farms in Russia were being questioned by an investigator. "What do you feed your chickens?" he asked the first.

"Corn."

"You're under arrest! We use corn to feed people!"

The second overheard this conversation, and tried to play safe.

"What do you feed your chickens?" came the question.

"Corn husks."

"You're under arrest! We use the husks to make cloth. And you?" he asked, turning to the third man.

"I give my chickens the money and tell them to go and buy their own food."

o

Three Miles to U. S. War, Wheeler Blast on Greenland Base

SALT LAKE CITY,—Sen. Burton K. Wheeler (D-Mont), leader of the senate isolationist bloc, moved his non-intervention campaign westward after charging establishment of American air bases in Greenland will bring the United States "three miles short of war".

When the United States embraced Greenland within its hemisphere defense system under an agreement with the Danish ambassador, Wheeler declared it brought this country near the war lanes.

"How far are we from war?" he asked. "We are just three miles short from Greenland—for that is the distance military and naval authorities tells us the United States is removed from the war lanes."

The fiery Montanan goes to Spokane next and then will swing east.

Wheeler asserted American ambassadors have played a "shocking part in the war game of Europe."

Naming only William Bullitt, Wheeler said when the facts become known the American people will become aroused. He hinted, however the facts will not be made public until the war is over. In regard to Bullitt, Wheeler declared the ambassador "led most of the governments of Europe to believe we were coming into the war."

o

Worker Faces Trial On Assault Charge

Clifford W. Hirt, upholstery worker, was held for trial in superior court on a charge of assault with a deadly weapon. Alonzo Huntley, truck driver for Century Upholstery, 2603 University ave., testified that his brother, George, became involved in a fight with pickets April 1 in front of the shop and that he ran out to help him. Hirt, one of the pickets, Huntley testified, struck him with a black-jack and broke his jaw.

George A. Huntley said he also saw the black-jack in the hand of Hirt and saw him pass it to another picket after striking two blows. Mrs. Louise Field, manager of the shop, said she saw the fight and also saw the weapon in Hirt's hand. The defense offered no evidence at the preliminary hearing before Municipal Judge Phil Smith.

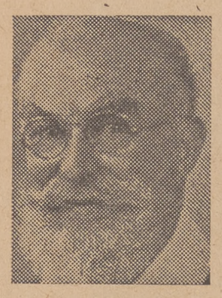
HEALTH-GERMS

By George Starr White, M. D.

KILLING THEM WITH DRUGS

LOS ANGELES,—If they cannot kill the "common peopl" one way they will try to another—ethical way!



Dr. Geo. Starr White

Just had two more cases of total blindness from the SYLFA compounds. Now OUR U S A are lead into making salad dressings with this poison to feed OUR U S A drafted men! They will not have to go to "war" to be kild—Organized Medicin backt up by "Uncle Sam" will do the killing.

They'll Cry For New 'Sulfa'

BALTIMORE,—A new drug known as sulfadiazine has been developed by Dr. Perrin H. Long, who first introduced sulfanilamide into the United States.

He told the Johns Hopkins Medical society that it may replace sulfanilamide, sulfapyridine and sulfathiazole in medical practice.

Dr. Long said this new discovery apparently has every curative quality of the other "sulfa" compounds and avoids all the toxic complications which make the others unpleasant.

Now, 'Sulfanilamide Salad'

ST. LOUIS,—"Buttered" sulfanilamide and other new forms of the wonder-working drug such as salad oil combinations, are expected to cut the death and disease rate of the United States Army almost in half, scientists attending the annual meeting of the American Chemical Society were told.

The newest form is a combination of butterfat and sulfanilamide which enables physicians to maintain a much higher concentration of the drug in the blood where it keeps bacteria under control and fortifies the body's natural defense mechanisms.

The new chemical, known technically as N-I-Butanolsulfanilamide, breaks down in the liver and kidneys and thus furnishes a more active concentration of sulfanilamide in the blood.

The buttered and salad oil forms of the drug do not deteriorate rapidly and can be used in emergencies.

Anyway, Uncle Sam will go to war full o' vitamins.

WASHINGTON,—A new "enriched" bread, rich in minerals and vitamins, will be on the market soon to help Americans "withstand the stresses and strains of war or threats of war."

Plans for production of a flour and bread to improve diets was announced by the national research council, flour millers and bakers.

The new flour and bread, which will be on the grocers' shelves this spring, provides for restoration of important food elements now taken out of flour in bleaching and other milling processes. It will be marketed in wrappers identifying it as "enriched bread" at probably no increase in retail prices.

The program is designed to help bolster national health and morale during the emergency. Improved diets will result from inclusion in the new bread and flour of iron and two vitamins—B1 or thiamin and pellagra preventing nicotinic acid.

The "enriched flour" can be made in two ways. One changes the milling process without added cost in milling. It gives the flour a rich, creamy color and palatable flavor with a large proportion of vitamins and minerals.

The other adds the proper amounts of thiamin, nicotine acid and iron to white flour. It costs less than 2-10th of a cent more per pound loaf than for ordinary white bread.

Syphilitic Racket Exposed Again

So many people have asked me where I get my information about the syphilis racket. In the first place I study health from the standpoint of principle. Once one knows fundamentals one does not have to take the word of "authorities" with M. D. and the rest of the alphabet behind their names. Nobody in this world is such an "authority" that he can outlaw the LAW of God and Nature and substitute his "authority" for it. But few people even realize what priciple and fundamentals mean, so they cannot follow our line of reasoning. That makes no difference, our diagnosis of the various rackets is proving itself true by the **results obtained.**

The other source of information about the syphilitic and other medical rackets is the reports of the medics in their clinical and medical journals. Among themselves they tell the facts. To the layman they distort those facts to appear as if medicine, their medicine, were a science. Following are excerpts from **The Journal of Laboratory and Clinical Medicine** for Oct., 1940, Warren T. Vaughan, M. D., editor, 201 W. Franklin St., Richmond, Va.

On page 146 is a report concerning the serologic reaction of **nonsyphilitic** sera from patients who had malaria but upon being subjected to the Wasserman test by 13 different serologists showed **false positives,** which means to say that the test showed they had syphilis, when in fact they had malaria.

"Malaria—36 cases; percentage of false positives (names of serologists making tests) Brem 14.3%, Eagle 12.1, Hinton 11.1, Johns 11.4, Kahn 11.4 Kline 14.3, Kolmer 19.4, Kurtz 16.7, Lufkin and Rytz 11.1, Rein 19.4, Ruediger 20.6, Weiss 8.6, Williams 17.1%".

In explanation of the above positives which in the named percentage of cases showed **positive** indication that the patient had **syphilis** when in fact he had malaria, the report continues:

"It is generally assumed, based on textbook reports, that false positive reactions may be obtained only in isolated pathologic conditions (in addition to leprosy and malaria), such as in infectious mononucleosis and in malignancy. A study of the reports of the serologic evaluation studies since 1928 reveals, however, that false positives may be obtained in many pathologic conditions and also now and then under apparently **normal** conditions. The reports of the League of Nations Health Organization of the Copenhagen (1928) and Montevideo (1930) serologic conferences list among the conditions in which **false positives** have been obtained: Acute bronchitis, psoriasis, acne, cerebral hemorhage, dementia precox, epilepsy, senile cachexia, measles, headache and many others. It might be added that the pathologic conditions in which false positives were obtained in the American Evaluation study of 1934-1935 include, aside from leprosy and malaria, tuberculosis, malignant neoplastic disease, acute febrile diseases, and jaundice. False positives occured also in **pregnancy,** during menstruation, and in other apparently normal conditions."

How would you like to have your wife declared **positively syphilic** by a Wasserman test if she happened to be one of those "percentages" of **false positives** resulting from the mere fact of pregnancy?

Such cases occur and what a scare would you and she get? And under existing law in California she would have to undergo **forcible treatment** with arsenical and mercurial compounds that would poison her and her baby and in many cases cripple them both for life.

How would you like to be taken with acute bronchitis, but to have the test show that you have **siphylis** in addition, since many doctors make it a practice to take blood tests of all their patients who are hospitalized, while you have no syphilis at all but under the California law now you become a subject of the pest house and the Board of "Health" will haunt you for the rest of your earthly life, even brand you with a report that is sent out in to **every state in the union** where you must report like a criminal from time to time to the local board of "health". What a racket!

Blood Tests for Butchers and Food Handlers

In San Diego for example every handler of food must submit to a blood test. It's a good racket for the doctors and the laboratories. It protects nobody and proves nothing, no more than membership in a labor union proves that the man is a capable and honest worker. It's just a racket.

But, according to serological tests, if it is true that **positively** reacting persons **must not handle** food to **"protect"** the customers, the following animals show that they are **syphilitic,** even when such is not the case. Now if the test show that they are syphilitic to such an extent that **every cow** tested, every **sheep** and every **dog tested** shows a **positive** reaction, what is happening to the butcher and the whole theory of not bringing the consumer in contact with **positive** carriers of "syphilis"? Now you people who have dogs, read and weep: Every dog out of nine shows **positive** reactions. Maybe yours in the ninth.

"It is well known that many of the lower animals give positive serologic reactions. It does not matter what particular method one employs, whether a complement fixation or a precipitation test, the reactions with sera of horses, cows, pigs, chickens, and other animals are positive in most instances.

Animal	Number Tested	Positive	Negative
Rabbit	29	21	8
Horse	21	19	2
Hog	42	42	0
Sheep	10	10	0
Cow	7	7	0
Calf	4	0	4
Dog	9	1	8
Chicken	54	32	22

Now if those animals are **not syphilic** in spite of the test showing positive what is the big idea of refusing to let people handle food unless they show a **negative** certificate from a physician? Or will you get "it" by eating pork, sheep and cow steaks?

"Was that God?"

Little Mary was put in an upper berth of a sleeping car for the first time. She kept crying until her mother told her not to be afraid, as God would watch over her.

"Mother—you there?" she cried.

"Yes, dear."

"Daddy, are you there?"

"Yes, Mary, now go to sleep," replied her father. A fellow traveler lost patience at this point and shouted. "Yes, by thunder—we're all here, your father, mother, brother, sister, aunts, uncles and cousins—all here—now go to sleep."

There was a pause, then very softly, "Mamma."

"Yes, dear."

"Was that God?"

Good THOUGHT

Good WORD — Good DEED

MAZDAZNAN CONFESSION

(Master Thought)

I shall follow the still, small voice of Spenta Mainyus in all its directions as coming from the realm of God, that by right living I may always demonstrate the full Truth through the health of the body, and most ably perform my duty in a spirit of obedience: prove the power of mind through reason, logic, consideration, discriminiation and deduction; have assurance of soul communion, comfort in spirit and the joys of life everlasing.

I shall conduct my life in a way that the knife shall never need be resorted to, and herbal medicines never need to pass my lips, but in their stead holy spells through the formulas of invocations and prayers exemplify the perfect life in God on earth.

I shall ever laud creation, and through the objects thereof worship the Lord God Mazda, and in all things of Nature, whether great or small the creature, behold the face of my creator.

de Aryan Comments

(Over KGB Wednesday, 7:15 pm, April 16, 1941)

I received a letter from a listener in Laguna Beach, California: "Dear Sir: Your talks on the radio are very stimulating. If there were more citizens like you, we would not have to worry about war." She signs her name and gives her address.

I have invited my younger son, Frederick, to take part in tonight's program. The last time he spoke over the radio he read a letter which he and his elder brother had sent to Assemblyman Paul Richie and to Senator Ed Fletcher, protesting any legislative encroachment on their right to earn a living, just because they were minors.

DAD—Did you get any reply to that letter, Freddy,

FRED—Yes, dad; both Mr. Richie and Senator Fletcher very promptly replied to us and each sent us a copy of the proposed bills.

DAD—What did you do about it? Did you read the bills?

FRED—David studied them quite thoroughly and I read them, too, and then David sat down and wrote a reply to Senator Fletcher which we both signed. I have a copy of that letter with me, shall I read it?

DAD—Let's hear it.

FRED—"Dear Senator Fletcher: Thank you for your kind letter with copy of Assembly Bill No. 375. We wholeheartedly oppose this bill granting the State Labor Commissioner the prerogatives of Newsboys' parents. Strenghtening bureaucracy that usurps the power of the parents is not the answer to the problem. Even if a child is forced to work in order to help support the family, restricting his rights does not help matters. Why don't you strike at the root of the problem, namely: why aren't the parents able to earn enough to fully support a family? — Always having been opposed to any sort of compulsory medical examination, this is no xception." — David and I signed this letter. Our dad earns enough to support the whole family, but he believes that we boys should learn early to make our own living and learn what it means to work to make a dollar. He thinks that hard work never hurt anybody and makes them appreciate more the value of money and the rights of other people to their own right to work. He says that a fellow who is a producer develops a sense of responsibility which a loafer does not have. I think I stated your ideas on the subject correctly, did I not, daddy?

DAD—Yes, Fred, that's why I want you boys to work. Booklearning is useless unless accompanied by practical effort, and the living of life on your own in this world will teach you more than all the school education can give you. There must be a mixture of theory and practice. You get theories in school, but only when you are in the world on your own do you get real practice. I see to it that you boys are not overworked, and you have sense enough to take care of yourself. We don't need a labor commissioner to tell us what to do and a strange doctor to meddle with your health. When we want a doctor we will get one, it is not the business of the state to force us to go to doctors. Changing the subject, I notice you won first place in the public speaking class at Woodrow Wilson Junior High. Were you surprised?

FRED—I sure was.

DAD—Tell us about it.

FRED—Well, as soon as Mr. David Austin, the vice-principal, gave the award to third place, I relaxed in my chair and thought to myself, while I was sitting on the stage of the school auditorium, 'no use getting nervous anymore, I won't get anything, but it was fun anyway'. But when I heard Mr. Austin call my name, I jumped out of my chair and was never so surprised in my life as when he gave me the gold cup for first place.

DAD—I'll tell you a god joke about it. A lady who never has a good word for me and always belittles everything connected with me, was told that you won first place in the speaking contest.

FRED—Who told her?

DAD—A friend of ours.

FRED—And what did she say?

DAD—She gave a grunt and said, 'Well, what did you expect? Look who his father is.'

FRED—Did she mean to take a crack at me, or at you?

DAD—Try and figure it out. Now tell me, when you selected the subject to speak on and started learning your piece, did you do that with a view of getting first place?

FRED—Not at all. When David was at Wilson, he got in the semi-finals, and I went into the contest with the thought of doing as well as David and getting into the semi-finals or even getting into the finals, but I had no idea of winning first place.

DAD—Did anybody help you prepare your piece?

FRED—Miss Angeline Martenis, my English teacher, corrected my English in a few places, and mother helped me with the actual presentation of it. In some places I would talk too fast, and on the whole I had to learn to talk considerably louder. I think that my teacher helped me the most, because when I told her of my plan to develop the Amazon Basin, it was not quite plain, but rearranging the speech corrected that error.

DAD—Since you did not go after first place, then, your interest was to do the best you could as a matter of minding your business and your interest in the work itself, was that your attitude?

FRED—In order to get an "R" in Speech, you had to enter the contest. But I did not enter it for that reason because I was interested in the contest itself. It was valuable to enter it, because you learned a lot about the topic you had chosen. But I am glad I won the gold-plated loving cup, it stands almost 9 inches in height.

DAD—Mother and I were there and we were glad you won the prize, but don't let that turn your head. God has given us various talents and various duties and responsibilities. Make the best of your energies and then look around and realize how much you have to learn yet, because even if you look at your own hand and feel the pulse beating, you must realize what a miracle life is, and you have no power to make a hand grow or the heart beat, once life has stopped of its own accord. So always be humble before other people, because God gave each one the life they have and you cannot give life. Keep that in mind, whatever you do and you will be slow in letting any kind of success turn your head. And you will never try and command other people how to live their lives or tell them to kill those who don't do as you want them to do, as it used to be in Turkey under the Sultan, in Russia under the Czar and still is the case today under Stalin when they are sent by the millions to Siberia or are shot by the OGPU. People who get bigheaded imagine they are masters over life and death, masters over the lives of other poeple. Beware of such folly. You cannot restore to life a hand that has been cut off or a heart that stopped beating.

FRED—I think I got your idea, dad—Would you tell me something about the election. Who are you going to vote for schoolboard?

DAD—I shall vote for John D. Axtell, Mildred Hale and Edward Hardy.

FRED—Why do you vote for Reverend Axtell?

DAD—Because he is a Christian minister and we need new blood on the schoolboard. Jake Weinberger has been long enough on that board. One of the three incumbents should be changed and I think that Axtell should be elected to make a change for the better.

FRED—I read in this week's BROOM that the firemen are asking for a 40% raise in wages. How do you figure that?

DAD—When the City Council gave the firemen their 6 day week and did not cut their wages, the firemen received a 14.33% raise in wages. They are asking the people to give them in addition to that another 15% boost in wages. That makes 29.33%. And the Civil Service Commission has recommended an 8% raise for all city employees. The firemen are asknig that this 8% general boost apply to them on the new rate. If we take the old rate to be 100, plus the 14.33% and the 15% we have the new rate of 129.33, if the people vote for proposition No. 22. Now take 8% of the 129.33 and you get 10.34. Add this to the 29.33 and you will see it becomes 39.64%. But that's enough for you tonight, Freddy, thanks for helping me out on this program.

Over in East San Diego where I live I have three firemen as my neighbors. The other morning I looked across the street and one of them, who is a subscriber to THE BROOM and a personal friend of our family as well as a special favorite of Freddy, was helping a neighbor out by mixing concrete and spreading it in the parking between curb and sidewalk. That fireman is a wise man by doing manual labor to work up an appetite and keep himself fit after loafing around the firestation week after week. It shows that loafing is no good for any man and on their day off they help a neighbor here and there and may earn an extra dollar which comes in handy. I would judge that while firemen are on call they do not actually work more than an average of 12 hours a week cleaning up and doing a little practice. One sure thing, they cannot even pretend that they are overworked. For a young man to get $170 a month for a starter is quite a privilege in these hard times and, then, after 20 years of service get half pay for life, is something you and I have not the privilege of receiving. Just figure how much we would have to pay in premiums each month to get $100 for life, monthly, after 20 years? You can see that the firemen are being treated royally already and that we cannot afford to give them even higher privileges which we deny the other employees. Vote **'NO' on proposition 22.**

Pray for Gasco

The pastor read the following text:" "The light of the wicked shall be put out."

Instantly there was a clap of thunder and the church was in darkness. With hardly a pause the parson went on: "Because of this startling fulfillment of this prophecy, the next few minutes will be devoted to silent prayer for the power company."

His Relatives

Visitor (at private hospital): "Can I see Lieutenant Barker, please?"

Matron: "We do not allow ordinary visiting. May I ask if you're a relative?"

Visitor (boldly): "Oh, yes! I'm his sister."

Matron: "Well, well! I'm very glad to meet you. I'm his mother".

Fifth Annual Spring Fair

In the most colorful flowerland setting ever arranged, the Fifth Annual Spring Fair of Modern Home Ideas will open its doors free to the public next Tuesday evening, April 22nd at 6 p. m. in Balboa Park for a six day showing which will extend through Sunday, April 27th.

Staged by the Bureau of Radio and Electrical Appliances each year mainly for the purpose of giving the public an opportunity to witness the latest development in modern home ideas, all the latest conveniences to comfortable and happy living will be assembled under one big roof for free study and comparison.

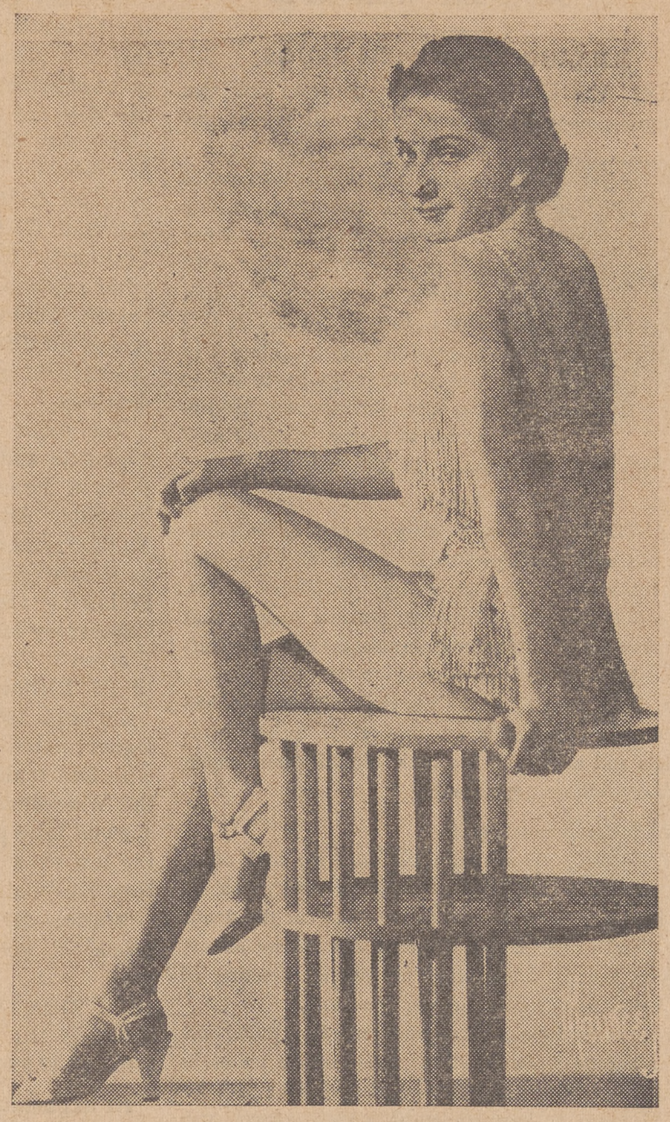
Visitors will have an opportunity to witness the latest developments in refrigeration, modern home laundries, gas and electric cooking, modern water heating, radios, completely automatic heating and air-conditioning and many other developments. As usual at this time, the Spring Fair will mark the premier showing of brand new designs and models by several manufacturers.

Unique among the displays will be a brand new full automatic dishwasher, which, without attention, lets water in and out, rinses, goes through the various processes of dish-washing and ends with the automatic cut-in of heating units for drying. A special "plug-in" dial display has been arranged by the San Diego Gas & Electric Company which will show the actual cost of operating appliances when the customer attached a cord.

Each night special radio broadcasts are scheduled to originate from the floor of the show while across the footlights of the main stage a special array of star entertainers will perform.

Doors will be open from 6 to 10:30 p. m. each night. In order to facilitate increased crowds which last year topped 8,000 visitors, the opening hour on Saturday and Sunday has been advanced to noon. As always, admission is free.

A FAIR IDEA OF SPRING!



Everyone has ideas about Spring, but what ever they are, we'll bet they are pretty well exemplified by Miss Betty Bennett, dancer and one of the star performers to be featured at the coming Fifth Annual Spring Fair of Modern Home Ideas to open free to the public April 22 to 27 in Balboa Park, San Diego.
